SUMMARY

Informatics Engineering graduates with strong analytical and problem-solving skills, experienced in data processing, statistical analysis, and data visualization using Python, SQL, SPSS, Microsoft Excel, and analytical tools. Skilled in transforming raw data into actionable insights through data cleaning, preprocessing, hypothesis testing, and reporting. Experienced in handling research-based analytical projects and developing data-driven solutions to support decision-making. A fast learner with strong attention to detail, excellent communication skills, and a strong willingness to continuously develop knowledge and expertise in data analytics and business intelligence.

SKILLS & COMPETENCIES

- Core Competencies:** Analytical Thinking, Problem Solving, Critical Thinking, Attention to Detail, Data Interpretation, Time Management
- Data Analysis & Visualization Skills:** Data Cleaning & Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Hypothesis Testing, Analytical Reporting, Dashboard Development, Data Validation.
- Technical Skills:** Microsoft Excel (Advanced: Pivot Tables, VLOOKUP/XLOOKUP, Data Analysis), Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL, SPSS, Tableau, Looker Studio, Google Workspace.
- Machine Learning & Analytics:** Classification & Prediction Models, Feature Engineering, Data Transformation, Model Evaluation, Research Data Analysis.
- Soft Skills:** Communication Skills, Team Collaboration, Fast Learner, Adaptability in Fast-Paced Environments, Willingness to Learn.

INDIVIDUAL PROJECTS

AdventureWorks Control Tower Analysis May 2026
[\[https://adventure-works-silk.vercel.app\]](https://adventure-works-silk.vercel.app)

Python, FastAPI, React, Excel, Business Intelligence

- Developed an integrated business intelligence analysis by combining operational, logistics, financial, inventory, and customer datasets into a centralized strategic reporting system.
- Performed data cleaning, KPI analysis, and business performance evaluation to generate actionable insights related to logistics, inventory optimization, customer satisfaction, and sales performance.
- Designed executive-level dashboards and strategic reports to support data-driven decision-making and improve operational efficiency.

Emerging Skill Requirements and Technology Trends May 2026
[\[https://s.id/TechnologyTrends\]](https://s.id/TechnologyTrends)

Python, Pandas, SQL, Matplotlib, Seaborn, Plotly, SQLite

- Conducted exploratory data analysis on global developer survey data to identify emerging technology trends, programming language demand, salary insights, and developer demographics.
- Performed data cleaning, preprocessing, outlier handling, and trend analysis using Python, Pandas, SQL, and visualization libraries including Matplotlib, Seaborn, and Plotly.
- Developed interactive dashboards and analytical reports to deliver actionable insights related to technology adoption, database trends, cloud platforms, and future industry demands.

AdventureWorks Enterprise Control Tower Dashboard Oct 2025
[\[https://s.id/SuperstoreAnalysis\]](https://s.id/SuperstoreAnalysis)

Python, Pandas, Flask, React JS, RFM Analysis

- Developed a customer segmentation and sales analytics system using RFM (Recency, Frequency, Monetary) analysis to identify customer behavior patterns, retention risks, and high-value customer groups.
- Built an interactive dashboard and REST API-based analytical platform using Python (Flask & Pandas) and React JS to automate real-time sales analysis and customer segmentation.
- Generated actionable business recommendations through sales trend analysis, cross-selling opportunities, customer retention strategies, and Average Order Value (AOV) optimization.

PROFESSIONAL EXPERIENCE

PT Global Jet Express January 2026 – Present

Daily Worker Staff Processing

- Managed the accuracy of inbound and outbound package data using an integrated logistics system to ensure real-time synchronization between physical scans and the central database.
- Monitored and analyzed operational KPI reports, including evaluating miss-route rates and distribution efficiency at various drop points.
- Performed regular validation of shipment statuses and Quality Control (QC) inspections to ensure package integrity and data consistency within the system.
- Optimized daily distribution data processing using advanced Excel functions to create analytical reports that support warehouse operational decisions.

Data Analysis Consultant (Freelance) May 2024 – Present

Independent Data Consultant

- Conducted data processing, statistical analysis, and reporting for various academic and research-based projects with a strong focus on data accuracy and analytical quality.
- Performed data cleaning, preprocessing, validation, and transformation using Python, SPSS, Microsoft Excel, and statistical methods.
- Applied inferential statistical analysis, hypothesis testing, and diagnostic evaluation to support research objectives and data-driven conclusions.
- Developed analytical reports, data visualizations, and research insights to present complex findings in a clear and structured manner.
- Collaborated with clients to ensure alignment between research objectives, methodologies, and analytical outcomes.

PT Federal International Finance (FIF Group) Mar 2025 – Aug 2025

Account Officer

- Verified customer documents and ensured data completeness in accordance with company procedures.
- Managed customer administrative records and updated reporting data accurately within the internal system.
- Supported daily operational and administrative processes to maintain efficient customer service workflows.

EDUCATION

Bachelor of Informatics Engineering Sep 2020 – May 2024

Universitas Muhammadiyah Jember

GPA 3.86 of 4.00

Honors: Cumlaude, Dean’s List

CERTIFICATIONS

- **Microsoft Excel**
Coursera (by Microsoft) | 2026
- **IBM Data Analyst**
Coursera (by IBM) | 2026

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Relawan TIK Jember Jul 2022 – Feb 2025

HR Division

- Delivered digital literacy education and training to over **1,000 participants** from various backgrounds.
- Conducted technology socializations and outreach programs for schools and public institutions.

BEM Fakultas Teknik Sep 2022 – Aug 2023

Head of Research & Technology

- Led technology-focused workshops and managed the documentation and reporting of organizational activities.
- Responsible for managing the faculty's digital information systems and data accessibility.

ACHIEVEMENTS

Highest GPA Graduate – Faculty of Engineering <i>Achieved the highest GPA in the Faculty of Engineering with a GPA of 3.86/4.00.</i>	Aug 2024
Bronze Medal – East Java Indoor Hockey Competition <i>Won 3rd place in the East Java Indoor Hockey Championship.</i>	Sep 2023
1st Place – National Scientific Writing Competition (LKTI APSI Nasional) <i>Won first place in a national-level scientific writing competition.</i>	Feb 2022
